AUDITOR'S AGENTS GOT THE GRAPES

NEAT SUM COLLECTED ON QUIET LITTLE VISIT TO THIS CITY.

State Auditor's Agents Sam H. Kurb at London, and J. P. Whittinghill, of Owensboro were here last week, for a visit in the courthouse in an effort to discover unlisted property which ought to be taxed. They succeeded in uncovering quite a neat little pile and their commissions amounted to more than enough to pay their expenses here.

They secured \$250 from the estate of the late T. J. Foster and \$777 from the estate of the late T. J. Robinson, an unpaid inheritance tax, \$20 back taxes and \$547 back taxes, including the penalty from Mrs. Hannah L. Steger, of Crab Orchard, and \$22 inheritance tax from Miss Jennie Tucker.

Primary March 4

CALLED TO NOMINATE FOR CIRCUIT JUDGE.

At a meeting of the Democratic committee of the 13th judicial district held in Danville last Friday, a primary was called to be held in the four counties of the district, Lincoln, Boyle, Mercer and Garrard on March 4th, 1911 for the purpose of nominating a candidate for Circuit Judge to fill the unexpired term of the late Judge M. C. Sautley, which Judge Lewis L. Walker is now holding by appointment till then.

February 18th was the last day lived for entrance of candidates and the fee was fixed at \$500 to cover the cost of a primary in the district, chairman Geo. L. Penny, of this county, president, and Chennell Hinkley of Boyle was chosen secretary.

So far Commonwealth's Attorney Charles A. Hardin is the only announced candidate for the judgeship and it is not believed that he will have opposition for the honor.

More Marriages

THREE YOUNG COUPLES MADE HAPPY LAST WEEK.

The little God of love, Don Cupid, is losing no time as Christmas approaches and the weddings are many and often. Washington Carroll, a prominent young farmer of the Somerset pike was married to Miss Lillian Green at the home of Arch Green on Thursday the 15th inst. J. J. Tuckey said the words which made this popular pair one.

Thomas Leech and Miss Kate Padgett, both of the Wayneburg section, were also married on the 15th and leave the good wishes of a host of friends.

A. C. Perry, a well-known young farmer of Casey county and Miss Lillian Roney were made one on the 11th at the home of her father, F. M. Roney, in the presence of a number of friends and well wishers.

Plenty Of Pole Cats.

W. B. LAND BUYS A BUNCH OF STUFF IN CASEY.

W. B. Land was down in Casey trading last week and bought a big bunch of stuff. He got 17 cattle from Bob Murphy of Liberty, paying about \$1.25 cents; he also got 80 hogs from Murphy around 6 cents and another bunch of cattle comprising 20 head at \$1.34 to 4 cents. He sold to Jones & Lutes of this county 16 cattle at 3 to 4 cents.

Mr. Land bought several hundred dollars worth of furs in Casey and that part of Lincoln which he will ship to Cincinnati. He says that pole cat hides, especially, are very plentiful this season. These fragrant pelts are made into almost all kinds of furs, but are first robbed of their color by proper treatment. The pole cat hides make up into very prettiness and are quite in demand.

GAMNITZ TO GET HEARING

A dispatch from New York, where the National League directors have been in session, says:

"Pitcher Howard Gamnitz, the little chap who was a main factor in winning the 1909 pennant for Pittsburgh and who was claimed a \$1,500 bonus from Pittsburgh, because he claims, he abstained from the use of intoxicants through the 1910 season will have a hearing on his plea in February. The board passed this case over in order to allow the player a chance to be heard in his own behalf."

McKinney Mill Robbed

BLOODHOUNDS UNABLE TO FIND A TRAIL.

The McKinney roller mill was broken into by a burglar Saturday night who only procured three sacks of flour for his trouble. Two other sacks which he had hidden outside, probably with the intention of coming back for them later were found by Mr. J. S. Murphy, the proprietor, and recovered.

Mr. Murphy discovered the burglary, which was committed in the early evening, soon after it occurred and immediately summoned Lair's bloodhounds from Hustonville. The dogs went to work with vim but were unable to strike the trail, so that little clue to the murderer could be found.

Robinson Won't Run

FOR PROSECUTOR TO SUCCEED C. A. HARDIN.

County Attorney Joe B. Robinson, of Garrard, was here yesterday. He has frequently been mentioned as a probable candidate for the democratic nomination for Commonwealth's Attorney to succeed Hon. C. A. Hardin, who it now seems quite certain will be nominated by the democrats to fill out the unexpired term of the late Judge M. C. Sautley. When asked about his probable candidacy Mr. Robinson declared, however, he has no thought of becoming a candidate, and he further does not believe that Garrard county will offer a candidate for the office.

So far the most mentioned men for the place are County Attorney Rodman Krenon, of Mercer, Judge Emmett Payson and Henry Jackson, of Boyle and County Attorney W. S. Hurch, of Lincoln.

DUSTED PISTOL OFF; BULLET ENTERED SIDE

MORELAND YOUNG LADY PROBABLY FATALLY INJURED SATURDAY MORNING.

Miss Bessie O'Nan, a popular young girl of Moreland, sustained a very serious accident Saturday morning while she was assisting in setting the house in order. She was dusting a mantel on which lay a pistol belonging to her brother. In some way she knocked the weapon off and as it fell the floor it discharged, the bullet entering her side and causing a very serious wound, from which it is feared that she will not recover.

Miss O'Nan was only 17 years of age, and her many friends and loved ones are greatly grieved over the accident.

STANFORD BOY IN WEST

The Parker, Arizona, Post in telling of a visit to that thriving little city on the Colorado river, by a special train load of Phoenix business men says this of the part played in the entertainment by a former Stanford boy, a son of Mrs. J. C. McClary and a brother of the I. J. Editor:

"Secretary R. C. Sautley, on behalf of the Parker Board of Trade, responded to the visiting speakers. He briefly reviewed the local situation regarding the present efforts being made to secure the opening of the Colorado river Indian reservation, and asked that the Phoenix Board of Trade assist in the work of having the Washington authorities open a settlement of the thousands of acres of fertile farming land adjacent and tributary to Parker. Mr. Sautley's remarks met with popular approval manifested by prolonged applause."

WHY NOT EXEMPT THE FARMERS TOO?

JUDGE McQUOWN ASKS PERTINENT QUESTION OF THE TAX REFORMERS.

The Frankfort State Journal recently published a very interesting communication from that very able jurist Judge Lewis McQuown regarding the campaign which is being waged for a change in the taxation laws of Kentucky. Judge McQuown writes: "The amicable but persistent Mr. Robinson, of Louisville, has been accustomed to attribute every ill which befalls Kentucky, to her failure to adopt his system of taxation. It is not astonishing, therefore, that we are told by him in a communication to the Courier-Journal, that our present showing in the recent census is directly attributable to that cause. His argument is that if Kentucky would adopt his system, under which capital should not be taxed, when invested either in commercial business, or stocks and bonds that he would have a larger population and greater prosperity."

"No more vicious system could be conceived of. It would create a privileged and protected class. The farm and its products and its homes and property of the poorer classes would be taxed at a higher rate than at present to carry on the State government. The wealthy class would be exempt. Why, then, while the capital of this country is, if indeed we could, purchase the residence here of the capitalist with the addition, it may be of a few thousand other people, at such a cost?"

"But this result of the census has no relation to the alleged cause. Our system of taxation has deterred investment from coming to Kentucky, either with or without capital. The statement to the contrary, is a bold assertion without evidence to support it. Capital and property are taxed no heavier in Kentucky as a rule than in the other states. The simple reason why more capitalists do not come to Kentucky to invest in enterprises here is that ventures elsewhere seem more promising. The taxation here would not, and it does not, either reward or embarrass any business that has substance in it, or capital behind it. Every commercial class in the State has had frequent communications from capitalists who propose to establish business enterprises in Kentucky. But in the majority of these cases the condition of the country is based upon a large investment of local capital and it is upon the failure of this class to come that the statement is persistently made by Mr. Robinson that business enterprises are barred from Kentucky."

"But Oklahoma and Texas, neither of which has Mr. Robinson's system of taxation have increased in population beyond any other states. Other states in the east have scarcely held their own. The increase in the named states and the stagnation in population in the last, are not the result of systems of taxation, but of other local and natural causes. The failure to adopt Mr. Robinson's system did not keep capital of people out of Texas or Oklahoma, nor would its adoption have brought them into Vermont or New Hampshire. If not why has it kept them out of Kentucky?"

"The fact and truth is that a league has been formed by the capitalist of this country whose sole purpose it is to change the system of taxation, in all the states, so that capital will be nearly, or entirely, exempt from taxation. This crusade is carried on by Mr. Robinson and others in Kentucky, under the specious pretext that capital will come and bring prosperity with it. If tax exemption is assured, but suppose that these capitalists are successful in all the states—as they hope to be—then protection will be afforded everywhere, and no influx of population or capital will follow. It is Ohio, Indiana, West Virginia, and Tennessee adopt the new system, and Kentucky should also do so, what possible advantage would we derive from the change?"

"The farmer who raises cattle, sheep and hogs, corn, tobacco, wheat, oats and hay, has all the capital which he possesses invested in his business. Yet his farm which represents his capital together with products of his labor are to be taxed. He may have ten thousand dollars so invested. But under Mr. Robinson's system, a foreign capitalist may come and invest fifty thousand dollars in bank stock or he may invest it in a commercial enterprise, and escape taxation entirely. Why should not the capital of the farmer, engaged in agriculture, as a business, be entitled to the same exemption as commercial enterprises? Does not the prosperity and population of the state depend as much, or even more, on the amount of capital invested in agriculture, than in commercial business? Yet the proposed system will not only not give the agriculturist exemption, but in fact increase his burden. To compensate and reconcile him to hear his increased burden he is told that the population of the state will be increased."

"But suppose the beneficiaries under the proposed system should be changed, and the capital invested in agriculture should be protected, by exemption, and the burden of taxation laid heavier upon capital invested in commercial business, would the capitalist, whom Mr. Robinson represents, be satisfied if told that this exemption would increase our population and bring prosperity? No, he would not. He would be satisfied to increase prosperity and population in this way, but can they expect the commercial class, under their present system, to do so?"

"Can anyone doubt that if our revenue law was changed so that capital invested in agricultural pursuits should be practically exempted from taxation that the price of land would greatly advance, that thousands of farmers and many thousands of laborers would come to Kentucky, and our waste places would blossom as the rose? This would much more certainly increase population and bring prosperity than the exemption of capital invested in commercial enterprises. If population and general prosperity is what Mr. Robinson desires, let him adopt the system suggested, and he will have it more certainly than under the one advocated by him. The equality guaranteed by our government will be no more violated in the one sense than in the other."

HIGH HONOR FOR STANFORD GIRL.

MISS ROBERTA O'BANNON'S SPLENDID ABILITY RECOGNIZED IN SOUTH.

Miss Roberta O'Bannon, the accomplished daughter of Dr. W. H. O'Bannon of this city, has just been made lady principal of the Southern Christian College, West Point Miss. She is perhaps the youngest lady in the south occupying so important a position. Miss O'Bannon has been teacher of Latin and French in the College since September, and has made an enviable record. A few days ago the position of lady principal was made vacant, and the president of the institution very promptly tendered the place to Miss O'Bannon. The student body did not hesitate to approve the selection. The Southern Christian College is one of the most progressive schools in the south, and the marvelous growth enjoyed by it has attracted widespread attention.

Major Robert A. Hurton, a Kentuckian, is president of the college and the splendid organization is due to his efforts. He has many friends in Stanford and throughout the state.

Miss O'Bannon's many friends at home will be delighted to know of this well merited honor having been bestowed upon her, and are confident that she will fill her new position with credit to herself and honor to the school.

The Weekly Record which was es-
tablished at Dry Ridge, Grant county,
after a seven weeks' precarious exis-
tence, petered out and leaving a clear
field again for that excellent paper,
the Grant County News, published by
H. L. Westover. The News supply
fills the field in Grant county and
there is no need for another paper
and the advertising and reading pub-
lic of Grant were wise in sticking to
their tried and true friend.

Every once in a while some fellow
thinks he is called to start a paper
in some county or town which may
be a very fair one-newspaper field,
but is not large enough for two. If
the established paper has any sort of
hold upon its people and enjoys their
confidence, in 99 cases out of 100 the
newcomer will soon close up his doors
and leave, as the Grant County man
did, in debt to the tune of a thousand
dollars or so. Stanford has proven
the graveyard of several short lived
sheets, whose promoters evidently
thought the I. J. did not satisfy the
people's wants in the newspaper line
but learned to their sorrow that it
is too firmly an established home in
Stanford in Lincoln county to be oust-
ed by some fly-by-nighter. To the
uninitiated there seems to be an aw-
ful lot of fun publishing a newspaper
and there is. But the game is a very
expensive one, as anyone will discover
who will try a while.
